Arkansas Secretary of State Report on expenditure of Title I Funds During Calendar Year 2005

As requested by the U.S. Election Assistance Commission, the following narrative report outlines expenditures and related activities conducted by the State of Arkansas during calendar year 2005 utilizing Title I funds.

Section 101:

During the 2005 calendar year, the State of Arkansas spent \$2,225,092.92 in Title I Section 101 funds to improve the administration of Federal elections, provide local election official-training, support administrative costs associated with voter registration system procurement and implementation, and to comply with the provisions of Title III of the Help America Vote Act.

Election Administration-\$244,543

In 2005, Arkansas continued to use Title I finds to support the four (4) HAVA related positions within the Arkansas SOS Elections Division. Office supplies, travel costs, and other administrative expenses associated with HAVA project management are included.

HAVA personnel worked closely with the voter registration system vendor to provide project management assistance, develop functional requirements for the voter registration list, assist in conducting workshops for local election officials, and install voter registration and-network hardware in the 75 counties.

Complying with Title III Requirements (Administration)--\$26, 031

Section 101 monies also funded research and development of a new HAVA compliant statewide voter registration list in 2005. The State of Arkansas contracted with an information systems consultant on developing the requirements for a Request for Proposals, analyzing proposals submitted, and constructing a methodology for evaluating proposals. The Arkansas SOS conducted meetings with review and evaluation teams and reimbursed members' travel expenses.

The Arkansas SOS secured a lease for multi-functional facility to host both the voter registration project management team and supplies and to serve as a host site for staff and election- official- training.

Complying with Title III Requirements (Voter Registration System)--\$1,950, 519

Once the project plan for a HAVA compliant statewide voter registration system was approved, the state began coordinating data conversion and-the installation of -a high-speed Internet network and installation of voter registration hardware. Arkansas set aside

¹ While some of the research and development costs were incurred in late 2004, payments were not processed until early 2005
